## Please...

Do not mow your grass clippings into the city's streets.

1. Grass clippings are a leading cause of pollution in our rivers and lakes.
2. Grass clippings can be problematic in our city's storm sewer system.
3. Grass clippings that remain in the gutter eventually break down and provide a medium in which weeds and trees can grow with roots eventually doing costly damage to the city's curbs, gutters and pavement.

Mow the first 2-3 rounds blowing into the yard and change your direction once the grass clippings no longer reach the street.

*Thank you for your cooperation!*
